Team Urban Systems – Okanagan 2021

“Through Habitat Build Days Traine Construction employees are given the opportunity to help their community prosper by pitching in and making homeownership, and a brighter future possible for families in need of decent, affordable housing. The build days we are a part of are very enriching and rewarding in so many ways and an honour to be part of this experience.”

Build Day Participant

Team Flex Realty - Okanagan 2021

get ready for a truly rewarding experience

Habitat for Humanity Okanagan's team building opportunities offer organizations a chance to invest in their employees while making a real difference in the lives of hard-working families in the Okanagan.

Just like future Habitat owners do, your team members will come together on a Habitat build site, roll up their sleeves and work together to help build a safe, decent, and affordable place that a family in need will one day call home.

Habitat's team building opportunities are an experience like no other. When your team arrives on the build site, their job titles will disappear. Employees of all skill levels - beginner to professional - will learn useful skills as they work side-by-side in a safe environment under the leadership of experienced Habitat crew leaders. While the work will be challenging, it will also be rewarding. Together, your team will have fun, connect with their fellow colleagues in a truly meaningful way, and leave the build site proud of their accomplishments, their colleagues, and their organization.

your participation will have a lasting impact

Since 1992, Habitat for Humanity Okanagan, an affiliate of Habitat for Humanity Canada has worked with organizations like yours to help families build strength, stability and independence through affordable homeownership. While this work has had a tremendous social impact, it has also helped supporters achieve their organizational goals.

Organizations who have participated in Habitat's team building opportunities have reported the following benefits:

- Enhanced company image amongst employees and customers
- Increased employee morale, collaboration and productivity
- Improved workplace culture
- Improved talent recruitment and retention
- Reduced absenteeism
- Leadership development
- Community engagement

In addition to building stronger teams, your participation in Habitat's team building opportunities will help build stronger families and communities.

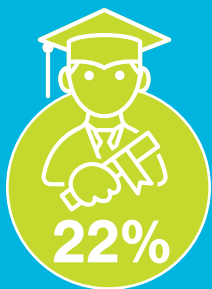

"Our partnership with Habitat for Humanity has been extremely positive for Refresh Financial as a company and our individual team members. We had the privilege of being part of a house building project where each Refresh team member was able to volunteer a day of their time as part of the build week.

The interaction with the family who would be receiving the home was valuable and heart-warming. Our staff loved learning new skills and building comradery around such an amazing cause. Habitat is a great corporate partner that aligns with our purpose of seeing potential and impacting our community for the better.

We look forward to more opportunities to partner in the future!"
